CAREER PATHWAYS

We have several options for growth and development at ProPhysio+

TRAINING & INDUCTION

We have the best on-boarding system in the industry which is available online to help your transition into our team. We call it the “Physio On-Ramp” with 40 hours of recorded content, links to great resources and is your fast start to not only our profession but our Company.

You’re provided a branded email address with G Drive cloud access to all our searchable presentations, videos and programs with how-to videos, step by step procedures and a simple induction process.

FREE RESOURCES

BLOG

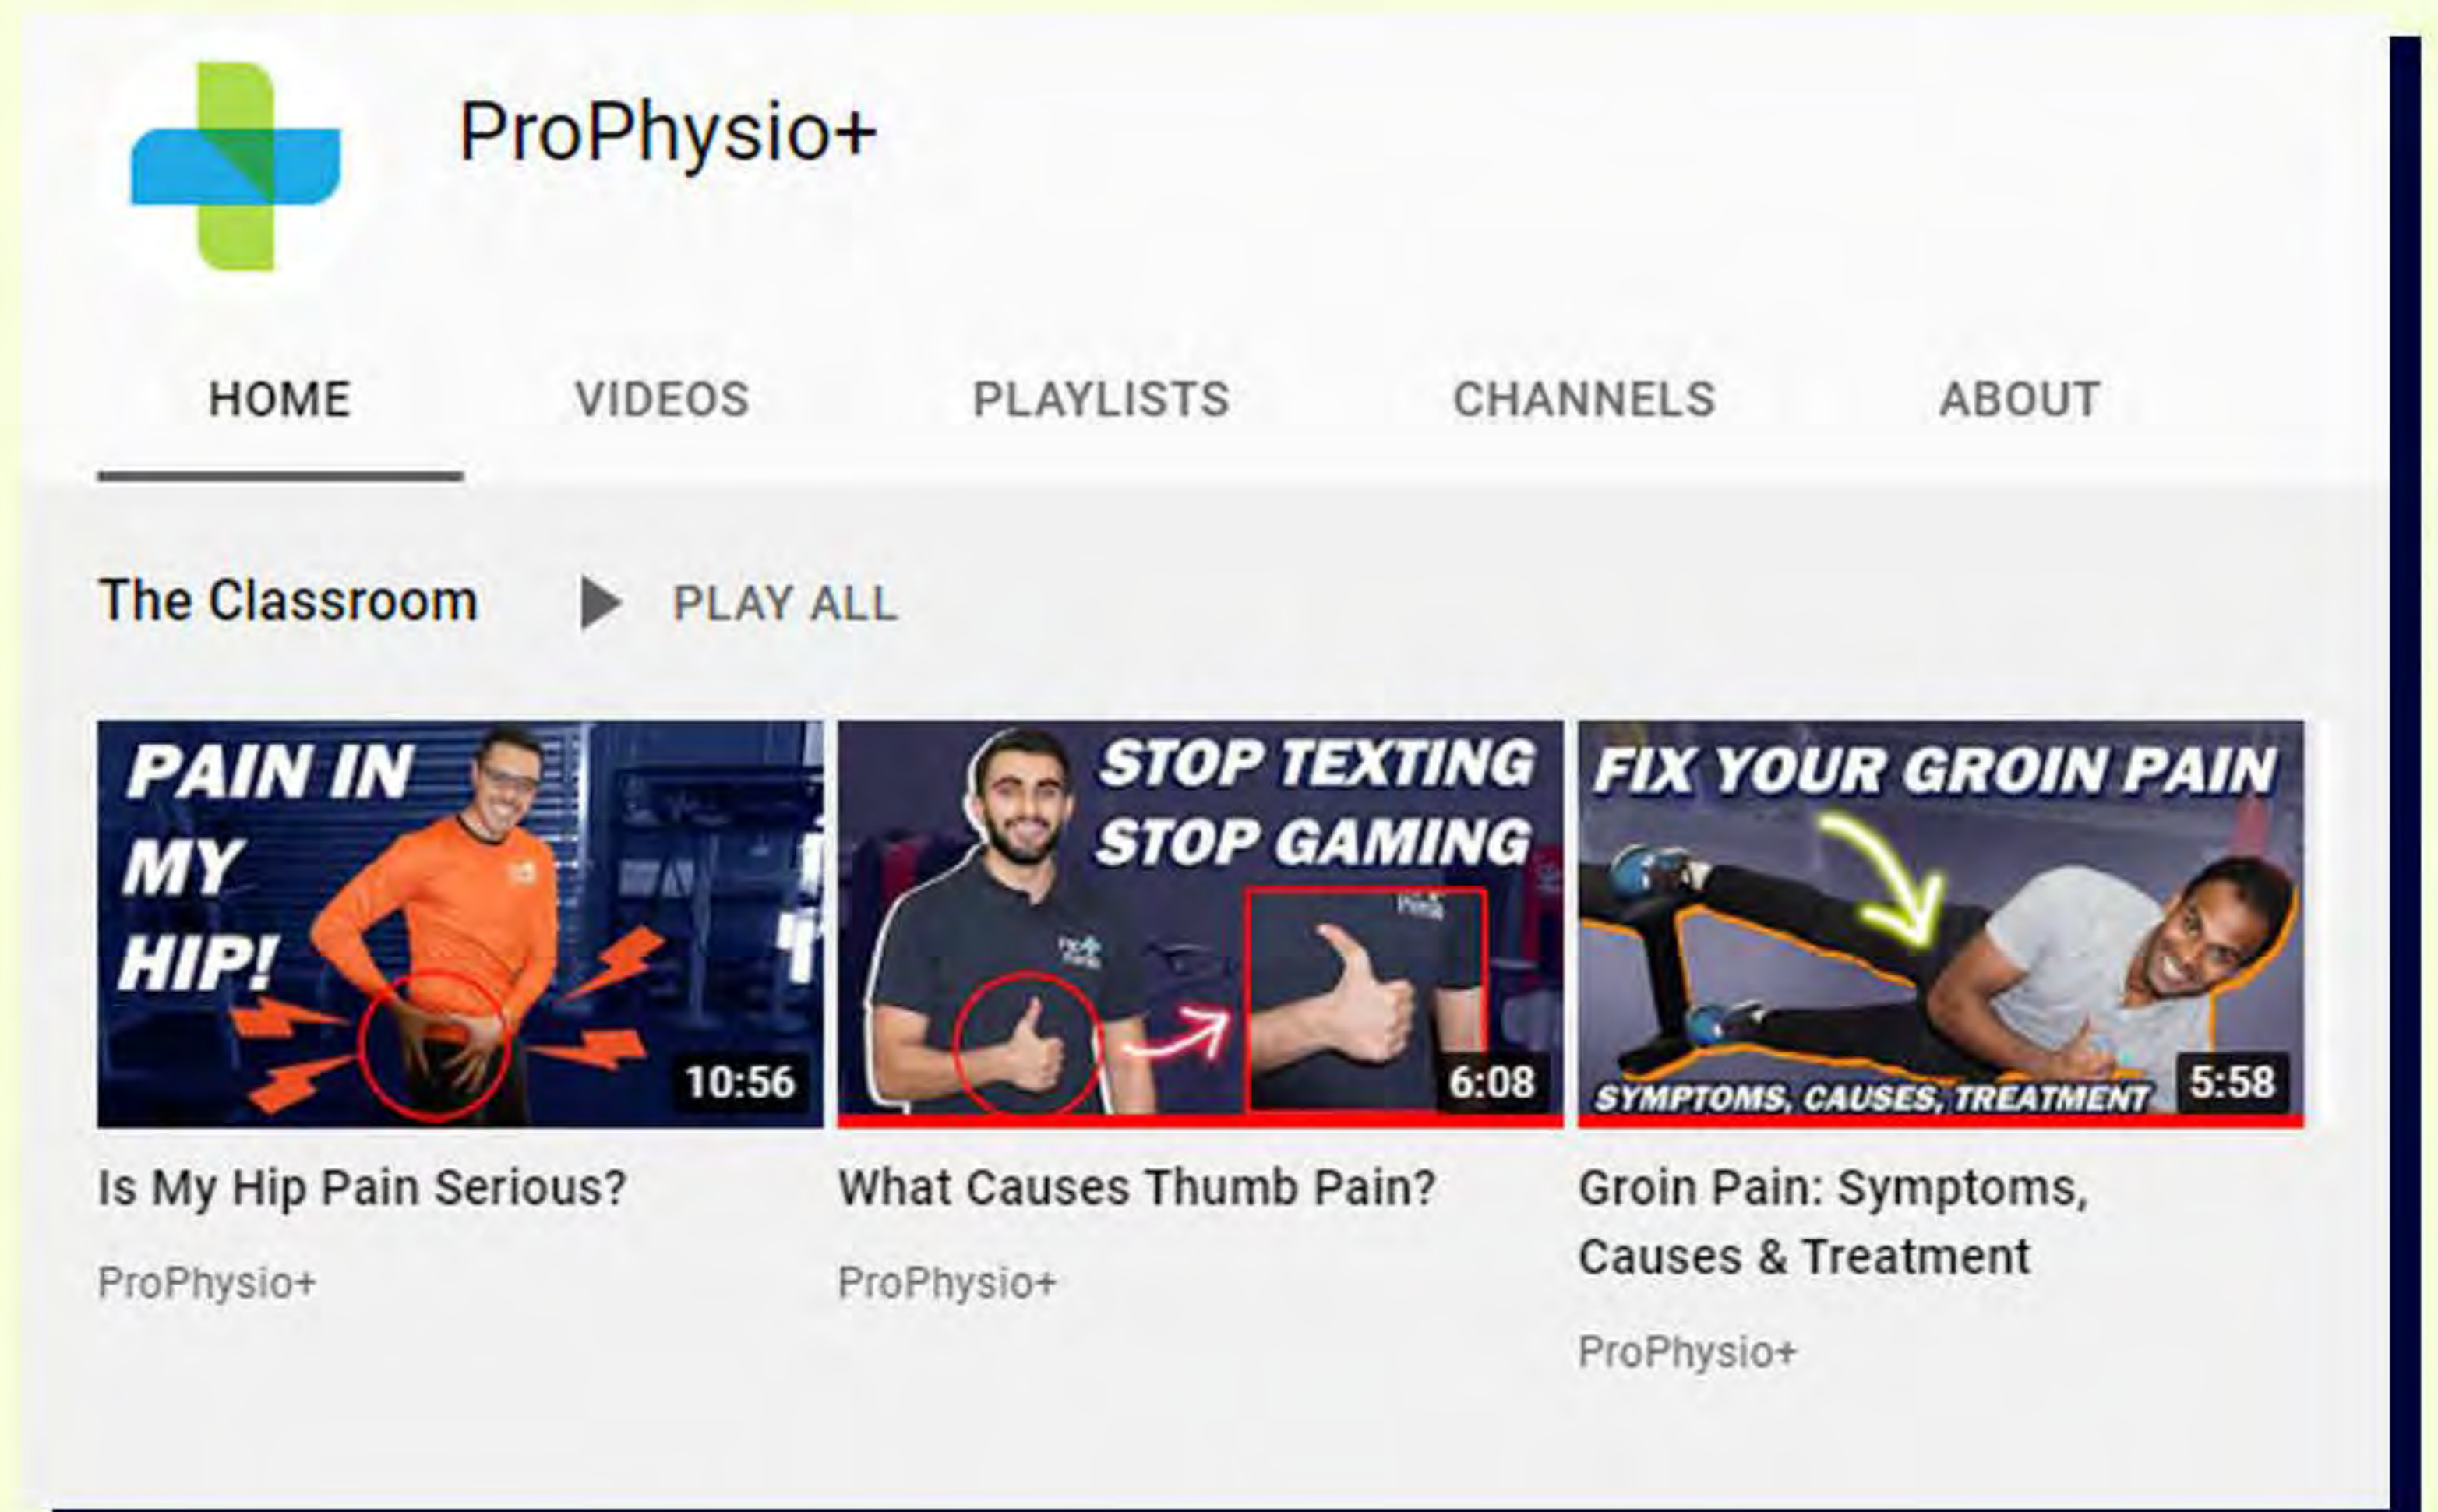

Our blog offers an educational platform, not only for consumers of the information, but also for our team members who can use their knowledge to express their understanding of topics of interest to our industry.

THE SECOND VISIT

This free facebook group shares case studies, reflections and education with a particular focus on clinical reasoning. We highly recommend joining this group and are proud to say we will be working directly with the team in 2021.

<https://www.facebook.com/The-Second-Visit-10141665156155>

YOUTUBE

Through our podcasts, we've been able to discuss many ideas, concepts and evidence in physiotherapy from a range of experts/mentors.

We also provide detailed videos in our 'The Classroom' project where we provide educational videos to enhance your technical skills.

GLOBAL SPECIALIST

A specialised consultancy service to the healthcare industry providing formal mentoring, training, professional development and a second opinion.
